

ModuleWorks

Get There Faster.

Your career at ModuleWorks

ModuleWorks develops software components for the CAD/CAM industry that are used to control and simulate CNC machines and robots. With over 160 employees and more than 60% of the global market share, ModuleWorks is the leading company in this sector. To strengthen our team, we are looking for a

Software Developer (m/f)

Your profile

- Degree in a technical discipline (e.g. IT, MATSE)
- Programming experience in C++
- Customer-oriented and self-confident
- Experience of software architecture, large projects and different technologies is an advantage
- Self-motivated and flexible team player
- Good knowledge of English
- Familiarity with coordinating software projects

The position

After an initial training period, you will be a direct contact for our international customers and work mainly on developing new software features and enhancing existing software. Working in close cooperation with customers and your colleagues, you will have a key role in integrating our software components into our customers' software systems and work as part of the team to solve the integration challenges.

What you can expect from us

At ModuleWorks you will find a friendly working atmosphere in an international and young team. We do not believe in strict structures and rigid ways of thinking, but instead offer diverse tasks and encourage flexible development that goes beyond flexible working hours and home office. Interested? Then get in touch with us! **We look forward to your application.**

Only complete applications will be accepted for the application process.
