

ModuleWorks

Get There Faster.

Your career at ModuleWorks

ModuleWorks develops software components for the CAD/CAM industry that are used to control and simulate CNC machines and robots. With over 160 employees and more than 60% of the global market share, ModuleWorks is the leading company in this sector. To strengthen our team, we are looking for a

Software Developer “Customer Projects” (m/f)

Your profile

- Degree in a technical discipline (e.g. Computer Science, Mechanical Engineering, MATSE)
- Programming experience in #+ and/or C++
- Experienced in one or more domains (backend development, UX development, project management)
- Self-motivated and flexible team player
- Good knowledge of English and German
- Customer-oriented and self-confident

The position

In this team we directly interact with our customers, developing solutions and making sure the integration of the complex ModuleWorks software libraries is delivering cutting edge results.

There are multiple roles here, depending on experience. Junior Developers will work actively within a team using modern technologies and techniques. As an experienced software engineer you will be responsible to coordinate a customer's project and you will be the interface between different technical teams at ModuleWorks and the customer, making sure all requirements are met in a timely manner.

What you can expect from us

At ModuleWorks you will find a friendly working atmosphere in an international and young team. We do not believe in strict structures and rigid ways of thinking, but instead offer diverse tasks and encourage flexible development that goes beyond flexible working hours and home office. Interested? Then get in touch with us! **We look forward to your application.**

Only complete applications will be accepted for the application process.
