

# ModuleWorks

Get There Faster.

## Your career at ModuleWorks

ModuleWorks develops software components for the CAD/CAM industry that are used to control and simulate CNC machines and robots. With over 200 employees and more than 70% of the global market share, ModuleWorks is the leading company in this sector. To strengthen our team, we are looking for a

## Working student for customer and research projects (m/f/d)

### Your profile

- You have at least 1 year of programming experience, ideally in C#
- You are studying computer science, engineering or a comparable course of study related to software development
- You have good German and English skills
- You are highly motivated and willing to accept challenges
- Independent working style, team spirit and flexibility
- Good analytical and conceptual skills
- Previous experience with technology such as .NET, WPF, Python, C++, Rhino, Grasshopper, VTK would be an advantage.

### What you can expect from us

ModuleWorks is happy to support you in your studies and with your final thesis. We also offer you the chance to take part in international CAD/CAM trade fairs and continuous opportunities to learn more about our technology and software products to ensure you are up to date on our latest technology and software functions.

### Interested? Then get in touch with us!

Please check your application thoroughly for completeness. Only complete applications will be considered for the application process. We are looking forward to receiving your application (preferably by email).
