

ModuleWorks and Spatial

Enabling the Future of Automated Manufacturing

- ① Introduction**
- ② Demonstration**
- ③ Questions**

Michael Stafne

M.S. Mechanical Engineering, P.E.
Manager, Industry Processes and Software Services

Hemant Bendale

M.S. Computer Systems
Technical Account Manager

**ModuleWorks Insider Conference
2022**

Aachen | 31.May-1.June.2022

Herzlich Willkommen!

① Introduction

Question

Imagine a CAM software application that automates manufacture from virtual CAD models to physical parts with just a few clicks.

- a. Complete fiction?**
- b. Future possibility?**
- c. Reality today?**

Answers

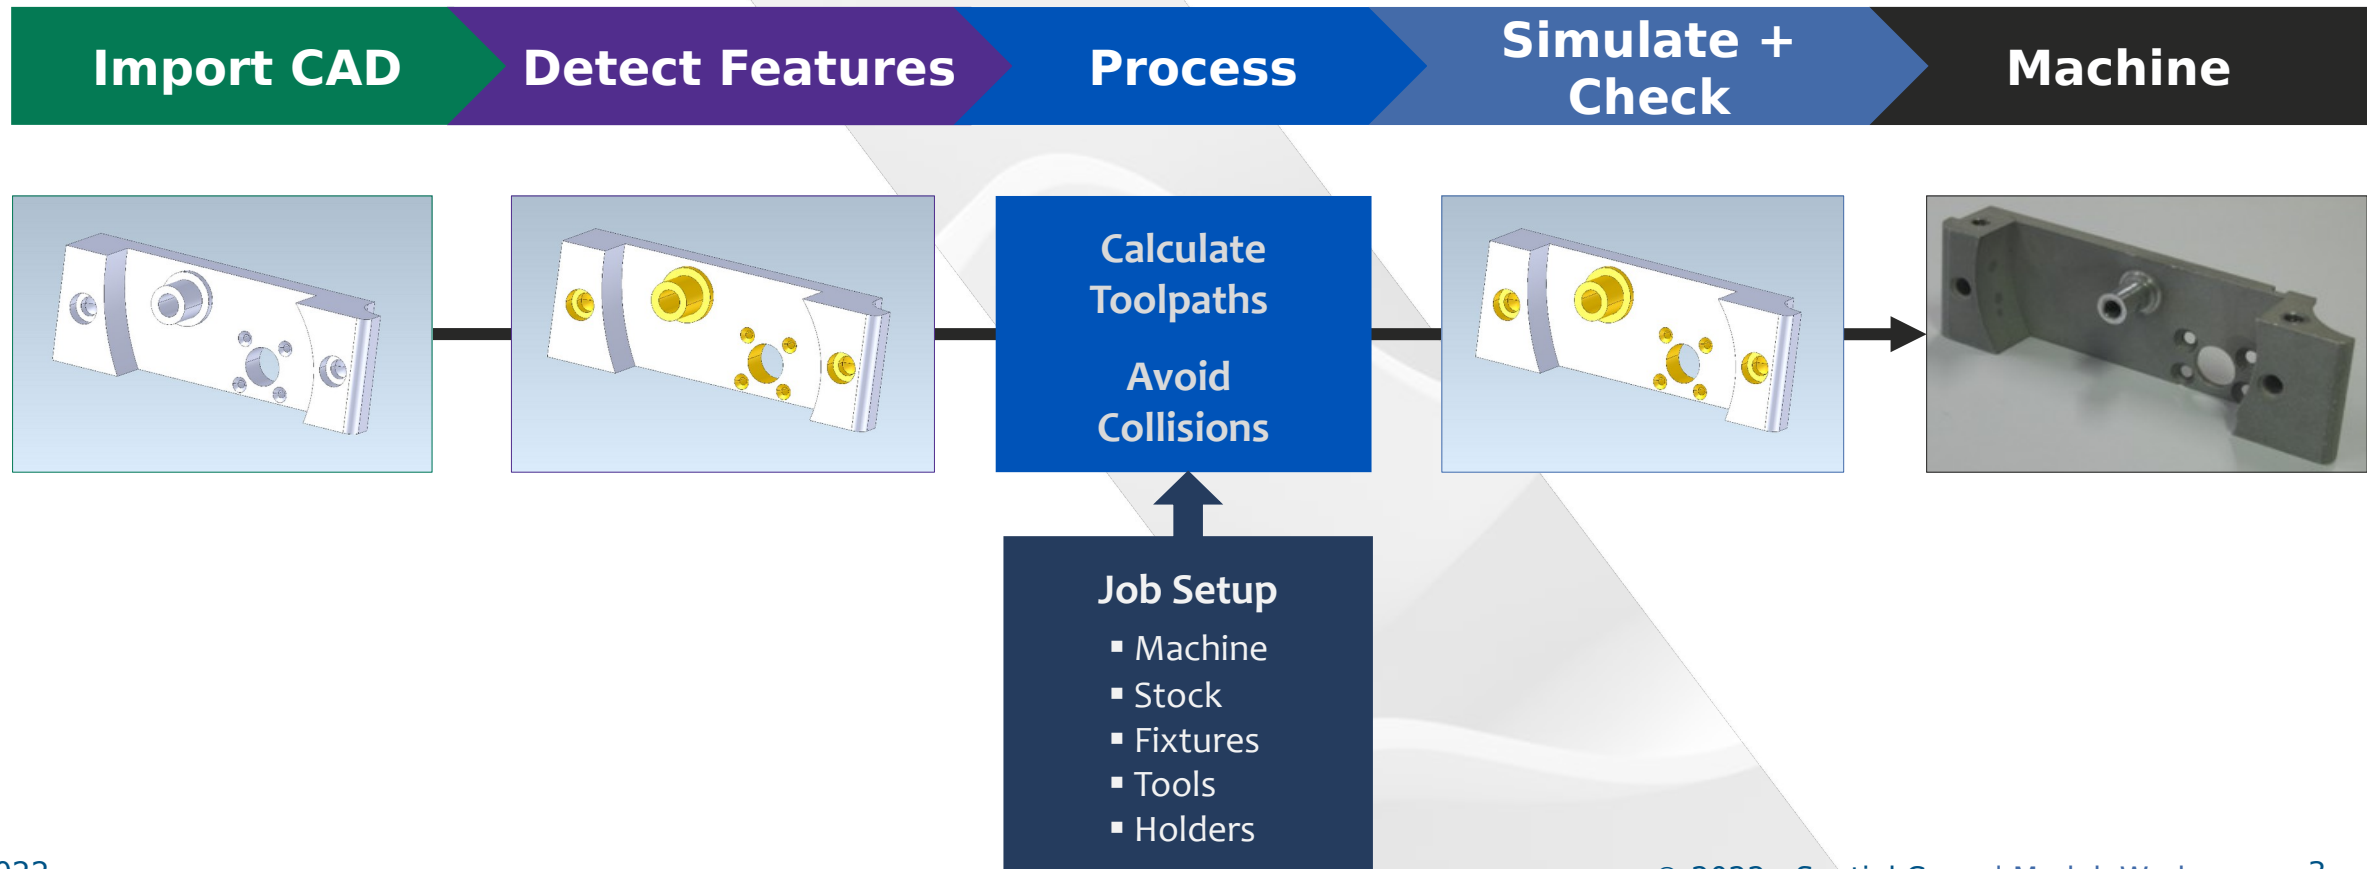

Audience feedback please!

- c. Reality Today!**

① Introduction

Reality Today

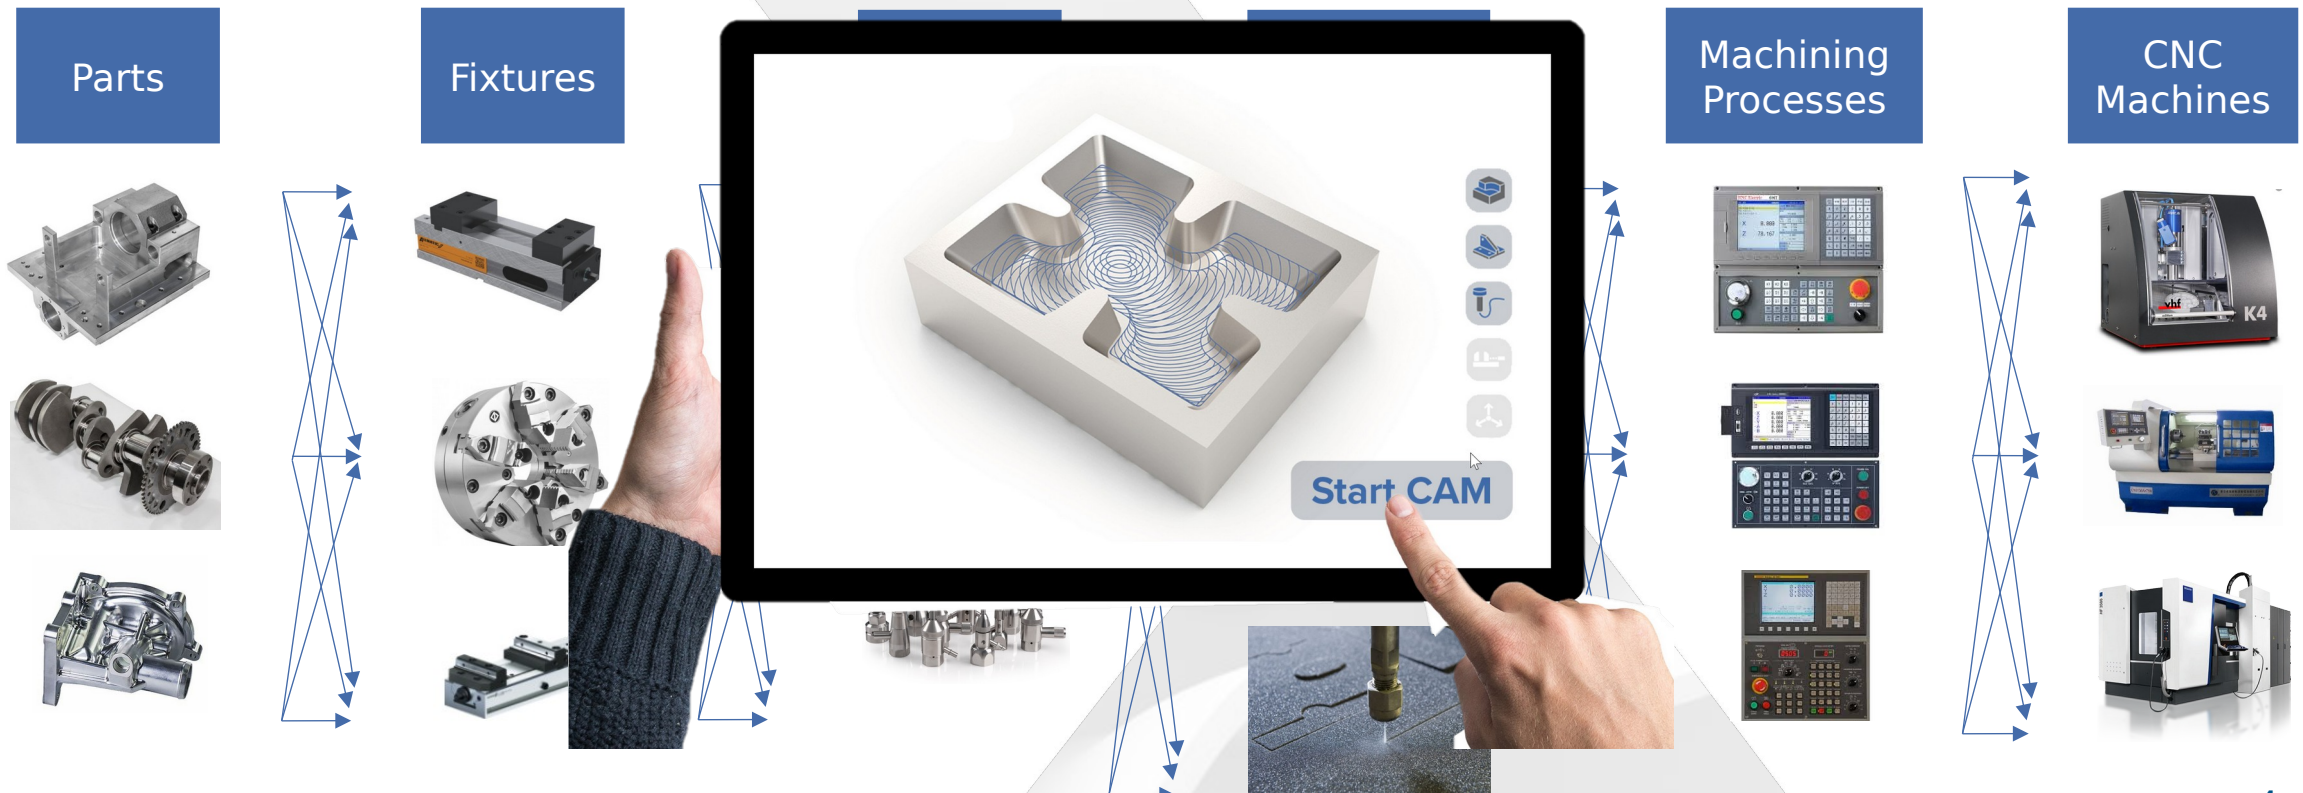

CAM automation from virtual to physical with a few clicks

① Introduction

Automation Goal

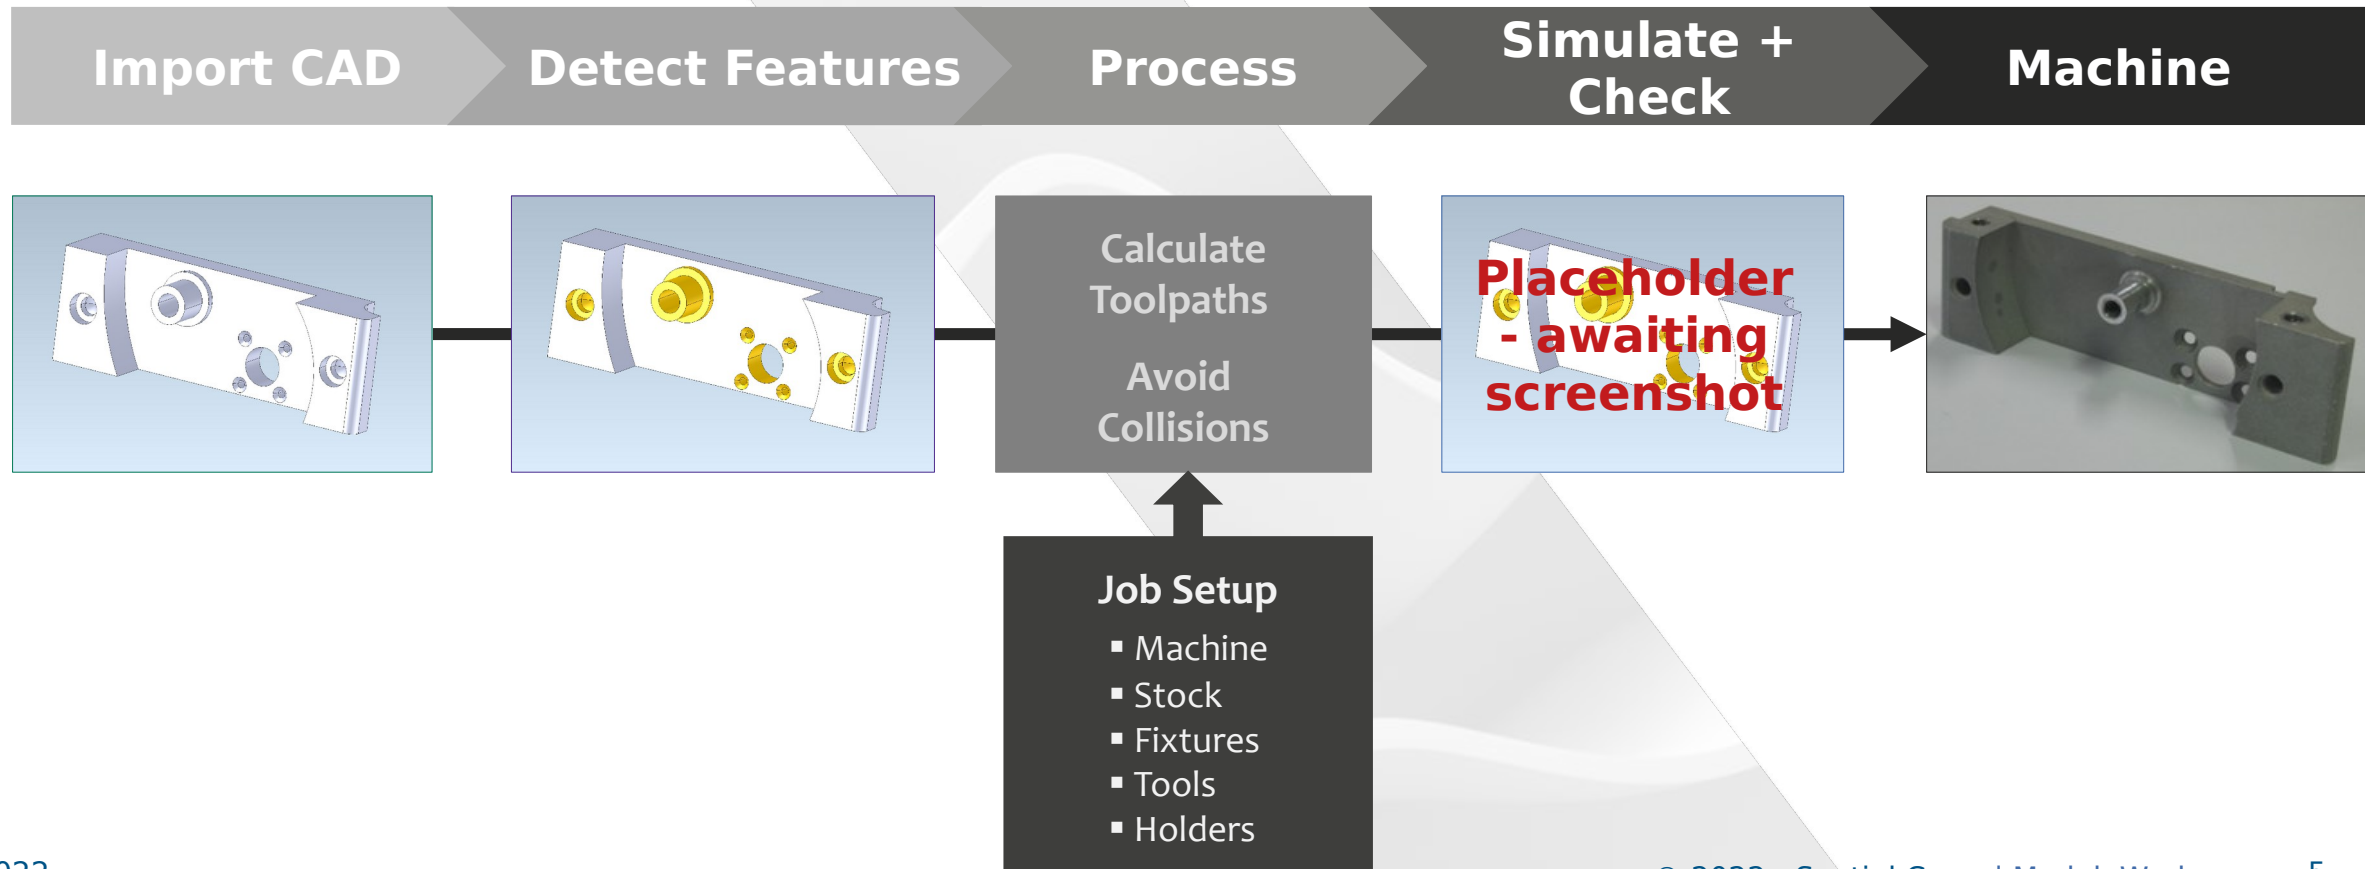

Objective is to decrease complexity for manufacturing engineers and machine operators

② Live Demonstration

Still Unconvinced?

Live demonstration is reality today!
